HEALTH CARE COVERAGE

- You and your family may be eligible for Medicaid. If you can't get Medicaid, you may be able to get Vermont Health Connect coverage with financial assistance. All uninsured Vermonters can sign up for Vermont Health Connect until October 2021.
- If you already have Vermont Health Connect, you may qualify for more help paying for your premiums. You may be able to get extra financial help through Vermont Health Connect in 2021 if you or a household member received unemployment insurance at any point this year and do not have another offer of insurance.
- Our Office of the Health Care Advocate can help you understand your options. We can help you apply, fix problems, and answer health insurance questions. We also help if you get denied for coverage or services. Call us at 1-800-917-7787 to get free help.

7

EXPANDED CHILD TAX CREDIT

- The Child Tax Credit (CTC) is expanded for tax year 2021 and it will provide advance payments as early as July 2021. The credit has also been raised to \$3,000 per child under 18 (or \$3,600 per child under age 6).
- The IRS will use the information on your 2020 tax return to determine if you meet the income limits and how many eligible dependents you have. If your 2020 return is not filed yet, the IRS will use information from tax year 2019. File a 2020 tax return ASAP if you have not done so yet, as this will give the IRS the most up-to-date information to send out these advance payments. If you filed your 2020 taxes but you've had changes in income or family size, the IRS will collect that information in an online portal.
